JurInnov Celebrates One Year Anniversary of New Headquarters

Move to the Idea Center in Downtown Cleveland Fosters Ongoing Growth and Investment

CLEVELAND, OHIO – Tuesday, June 19, 2007 – JurInnov Ltd. (<http://www.jurinnov.com>), a legal technology consulting practice specializing in the management of electronically stored information (“ESI”), today celebrated the one year anniversary of opening their new state of the art headquarters in the Idea Center (<http://ideacenter.wviz.org/>), a historic landmark located in the heart of Cleveland’s Playhouse Square Theater District and Technology Corridor.

“The past year has been exciting for JurInnov,” stated Timothy M. Opsitnick, JurInnov Senior Partner and General Counsel. “Our move to the Idea Center has enabled us to grow our staff of legal and technology professionals as well as enhance our line of computer forensics, data harvesting, electronic discovery, and litigation document management consulting services. We look forward to continued growth and success in the years to come”

Key highlights of the past year include:

1. A significant investment in the addition of a 150 terabyte Storage Area Network (“SAN”) device to support the rapid growth of the Ringtail Legal™ web-based litigation document management service. This device, which is installed in a secure offsite co-location facility, represents a storage capacity exceeding 10 billion pages of processed electronic data.
2. A 40% increase in professional and administrative staff.
3. Revenue growth of over 30% in comparison to the previous 12 months.
4. Numerous expert engagements and educational seminars regarding a variety of legal technology subject matters, including the updated Federal Rules of Civil Procedure, litigation preparedness, records management, e-discovery, data harvesting, and data preservation.

JurInnov occupies 5,500 square feet of space contained across two buildings in Playhouse Square, with the main entrance and administrative/management space in The Idea Center connected to the technology space in The Bulkley Building via a specially designed, fire resistant portal in the building walls. This unique configuration enables JurInnov to maximize building frontage and create bright open workspaces enhanced by the large windows overlooking Euclid Avenue and Playhouse Square. Due to the expected growth of the company and the market as whole, JurInnov is currently in the initial planning stages of expanding to additional space within The Bulkley Building.

About JurInnov Ltd.

Established in the year 2000 by Timothy M. Opsitnick Esq., JurInnov Ltd. has become a trusted resource for companies whose litigation technology needs are as varied and specialized as the companies themselves. JurInnov's international consulting practice focuses on the application of technology solutions to challenging litigation demands of law firms and their clients, including the hosting and management of litigation and document management systems, electronically stored information ("ESI") consulting and processing, electronic data discovery, data harvesting, electronic risk management consulting, and computer forensics. JurInnov is a certified partner of Microsoft[®] Corporation (<http://www.microsoft.com/sharepoint>), developers of the Windows SharePoint[™] Portal Server, and a Ringtail Legal[™] ASP partner of FTI[®] Ringtail (<http://www.ftiringtail.com>).
